CEO's Message

Life presents many choices, and the choices we make determine our future. Unfortunately, in Pakistan, aspiring students' choices are limited, which prevents most students from pursuing their career and professional aspirations. We at, Right Education, are committed to providing high quality, yet economical, options to the students, which enable students to fulfill their academic aspirations and dreams.

A student choosing a D-Pharmacy instead of becoming a medical doctor will have an entirely different life path. The Right Choice at this juncture in one's life will lead to an entirely different life.

It is often a difficult decision for the student and the parents to consider international destinations in pursuit of their respective degrees. Right Education has been guiding and assisting, in every way possible, to make this transition as convenient and comfortable as possible. Right Education goes a step further by taking ownership of the students during the entire course of their study.

Our student and parent testimonials should help allay the concerns of the parents and the students. We pride ourselves in providing the best guidance and support to families and students in ensuring that they can realize their dreams with a world-class education regardless of their field of study.

We have officially authorized representatives of EEUA (Eastern European Universities Association) and not traditional education consultants or advisors.

We look forward to supporting our youth in fulfilling their academic dreams and aspirations.

ABOUT Us

Officially Authorized

Right Education is a fully mandated and authorized organization serving the Eastern European Universities Association (EEUA), Russia. The company has a team of experienced and qualified student advisors who guide and counsel students on various aspects of studying in Russia.

Expert Guidance

Whether the student is choosing to study in Russia due to the higher quality of education or the fact that the local system was unable to cater to their desire to get professional education in Pakistan, Right Education guides the students in the process of choosing the programs which meet their aspirations.

Competitive Economical

Each student's circumstances and aspirations are matched with suitable universities and programs. We have the mandate for all universities under EEUA; however, the universities in the profile have been selected based on accreditation from relevant agencies and organizations in Pakistan like PMC, PEC and HEC. Additionally, the selection is based on providing a financial edge over private colleges and universities with similar programs.

Medical Programs "PMC Recognized"

The consideration includes the medical degree being recognized from PMC. Right Education offers the most economical solutions with the aim of keeping the cost well below the private colleges and universities in Pakistan. The degrees being issued by the universities are duly recognized from the Pakistan Medical Council.

Engineering Programs "PEC Recognized"

Engineering and technology subjects are being catered by the partner universities. The campuses are fully equipped with highly dedicated and professional educationists. The degrees that are received from any of these universities are recognized and accredited by the Pakistan Engineering Council.

Other Programs "HEC Recognized"

The universities are mainly the public entities located in the Russia socializing in medicine. Science, technology, engineering, economics and business subjects. The degrees being issued are recognized all over the world as well as by the Higher Education Commission in Pakistan, ensuring secure future and best academic facilities

Mission & Vision

Vision

To create a new class of Pakistani youth, empowered with a world class education and international exposure, in contributing to not only personal growth but the growth and success of Pakistan.

Mission

To enable every aspiring Pakistani youth in fulfilling their academic and professional potential by getting world class education in the most economical manner possible, which may be denied to them due to the limitations of our educational system.

Why Choose us!

- Right Education is a fully mandated and authorised organization directly associated with the Eastern European Universities Association, EEUA.
- We do not deal with former Soviet republics, rather with public Russian universities.
- Programs that we offer are fully recognised and accredited globally including HEC, PEC and PMC in Pakistan.
- We help students find the right university that best matches their aspirations.
- Our programs are more competitive than local private colleges and universities.
- Get a higher quality education while broadening your horizons.
- We not only help you secure a place in one of the best globally recognized universities but also cater to your financial and employment needs.
- Being with Right Education means securing your entire future.

Programs we Offer

01

Medical MD

Aviation

Eligibility Criteria

Academic Requirements

Minimum score of 50% each in Matric and FSc.
Matric and F.Sc. transcripts and Certificates copies.

English Language Testing

(Fluency Test by EEUA representative)
(No IELTS or third-party test required)

University Entry Test

Admission test will be conducted either online or it will be held in Russia at university campus, based on the individual university policy.

Other Requirements

Age Criteria/Limit: 18 years to 30 year.
Passport Validity: Minimum two (2) years
Copy of valid CNIC (both sides)

Admission Process

01

Documentation

After finalizing the course and fee structure with our representative, you can send the following documents to our email: eeua@doltright.pk

- Registration Form copy
- Educational documents copies
- Passport copy (1st three pages)

02

Interview

After reviewing the documents, our regional Director will take the interview of the student. Upon Successful interview, Student shall pay the Non-Refundable registration fee of USD. 500 and the admission process will begin.

03

Acceptance Letter

Within three (3) to four (4) working days initial acceptance letter will be issued by EEUA, Islamabad Office. Admission test will be conducted either online or it will be held in Russia at university campus, based on the individual university policy.

04

Visa and Legal Requirement

The Russian Invitation process will take around 40 to 45 days after final acceptance from the university. During this time, the student will get all his/her educational documents attested from Pakistani educational system & ministry of foreign affairs, arrange police character certificate, medical fitness test, HIV test, bank statements etc.

05

University Fees and Payments

Once the invitation letter is received, the student shall pay the remaining all the dues including airport pickup fee, tuition fee, hostel fee, medical insurance and EEUA Pakistan fee. Upon the payment of the fore-mentioned fees, the student shall submit the visa application along with the fee receipts provided by EEUA Pakistan.

06

Travel to University

Once the visa is granted, the student will make necessary flight reservations and share the itinerary details with the local EEUA office so that local EEUA office can arrange the necessary student pickup from the destination airport and subsequent transport to the university.

6 Months Language Course

Preparatory Program 6 Months

Want to learn Russian? Are you looking for a place to study this beautiful language? Then look no further! Vyatka State University is a great place whether you want to learn the basics as a prerequisite to any professional degree, or master in the Russian language.

Both courses (6 months and 1 year) are taught by university professors. They will teach you how to start speaking Russian LIKE A RUSSIAN and help you sharpen your listening, reading, and writing skills. At the end of the course, you will receive an official university certificate, proving your successful completion of the program.

Kirov's Objectives

- To provide educational programs that enable medical students to master all branches of medicine and health care skills.
- To prepare medical students to demonstrate competence in their fields of study at appropriate degree levels and to encourage excellence in student learning.
- To develop programs oriented to the most urgent needs of the region's health care.
- To provide graduate and continuing education programs for both professional advancement and personal enrichment.
- To encourage and provide essential support services for creative activities and research.
- To provide a variety of public services to enhance the well-being of the medical school and its community.

6 YEARS MEDICAL MD PROGRAM

Moscow Aviation Institute (National Research University) is the leading Russian high-tech university. It has been training the best engineers for aviation, missile and space industries since 1930. It was granted the status of a national research university and the aviation equipment developer certificate for its achievements in research and educational activities.

Moscow Aviation Institute is in TOP-10 Moscow engineering universities in terms of professional competence level and the graduates' employment rate. The University's diplomas are highly recognized in the leading Russian enterprises: "Rosatom", the State corporation "Roscosmos", "Rostec", AO "RSK "MiG", PAO "Sykhoy Company", "The Almaz-Antey corporation" as well as in the largest international companies.

Over 80% of MAI graduates work as leading specialists in well-known Russian and foreign aerospace enterprises. Among them are 23 cosmonauts, more than 150 honored test pilots, more than 250 chief designers, etc.
